It is your responsibility to keep your dog under control at all times. All dogs must be restrained from barking, whining, growling, or snapping at other dogs or at people for any reason. If you need help or instruction in correcting these actions please ask your instructor. Dogs which bite, attack, or appear to be threatening to other handlers or their dogs will not be allowed in the building unless they are muzzled and have approval from the instructor.

Keep in mind all our classes are introductory classes. They are not meant to provide a completely trained dog at the end of the session. These classes are designed to provide you, the handler, with basic skills. You should continue to practice beyond the class sessions with your dog.

We are interested in learning what your long term goals are so we can share any tips we might know. Specific, difficult issues may not be resolved during the class session. Difficult issues may take lots of work and time beyond the scope of this class. Serious issues may require individual training.

Tell us about yourself and your dog: (feel free to write on the back of this page if you have lots to tell us.)
